Please note we do insurance work for but are not limited to CIL and NRMA.

Caravan Services

Note: Bookings for caravan servicing need to be made at minimum 4 - 6 weeks in advance. Time required to complete a caravan service is from a minimum of 4 hours.

- Check wheel bearings & adjust/repack
- Check wheel drum & brake hub assemblies & adjust
- Check tyre pressures / tyre condition
- Check all lights, interior & exterior for faulty globes & connections
- Check all gas lines for leaks. If leaks are found, repairs must be carried out by licenced LPG installer.
- Check batteries & charge rate from alternator & / or battery charger. Clean battery slides & catch.
- Check all windows for operation. Clean & lightly spray moving parts with a silicon spray.
- Check access doors. Clean seals & locks, spray with silicon.
- Check all cupboard doors. Adjust keepers where necessary. Spray with a light oil on hinges & locks.
- Visually check pressurised water lines for leaks, quote and repair if necessary.
- If roof top air conditioner is fitted, retension hold down bolts to manufacturers recommendations.
- Operate all appliances, service to manufactures recommendations.
- Check operation of entry step, clean & service where necessary.
